**THE SIMPLICITY OF NATURE
AT THE SERVICE OF HAIR**

DUO MOLECOLARE

TARGETED MOLECULAR TREATMENT FOR TREATED, FRAGILE HAIR WITH A DEEP-DOWN ACTION TO REINFORCE AND REPAIR HAIR FIBRE, WHILE PROTECTING IT FROM OXIDATIVE STRESS.

The innovative treatment is based on the combined action of two products, a serum and mask, to mix before application to boost the efficacy of the active ingredients.

THE POWERFUL ACTIVE INGREDIENTS

1. Fiberhance™ Anti-Breakage Molecular Repairing Agent

A powerful plant-based active ingredient derived from sugars, clinically proven to strengthen hair by penetrating deep into the fibre, improving resistance to breakage, and restoring strength to damaged hair.

2. HyperFermented Organic Flower Extracts

HyperFermentation technology enables the full extraction and transformation of the plant's phytocomplex into powerful new active ingredients. This technique significantly enhances the hydrating and antioxidant properties of the Organic Flower Extract used in the treatment.

3. Restructuring Biomimetic Keratins

These are keratin-like, plant-based peptides that have a dual regenerative effect on hair by increasing thickness and volume, while also smoothing the cuticle and enhancing shine for a healthier-looking appearance.

4. 100% Plant-Based Illuminating Smoothing Agents

They restore long-lasting softness and shine by effectively smoothing the damaged cuticle.

DUAL USE

The SYNEBI molecular treatment has a dual use

Deep reconstruction - *Before shampooing, in case of damaged, fragile and lifeless hair:*

mix the content of the sachets, apply to dry hair and leave in for 20 minutes. No rinse and apply the specific SYNEBI shampoo and conditioner.

Fast smoothing reconstruction - *After shampooing, for treated, sensitized and dull hair:*

mix the content of the sachets and apply to washed, towel-dried hair. Leave on for 10 minutes and then rinse.

RESULT

After treatments, the hair fibre will be stronger and the cuticle perfectly smooth.

Hair will be brighter, incredibly full-bodied and soft. Cosmetic colour will last longer.
