WHEN NATURAL BECOMES HYPER-TECH

The new care solutions for hair beauty starts in the heart of the Mediterranean. An empowered nature that offers to Cosmetics a new range of hair treatments solutions. Selected and exclusive vegetal Phytocomplexes, obtained through Organic certified farming, are empowered in their effectiveness thanks to the HyperFermentation process. Organic oils, activated by an enzymatic process, offer an amplified cosmetic action on the hair fiber and new sensoriality. Thanks to the enhanced natural ingredients, combined with new high-performance molecules for visible effectiveness that is the hallmark of the new and innovative treatments, in a complete range of custom solutions dedicated to a wide variety of requirements.

Our choices

FOR A CONSTANTLY EVOLVING PROJECT

CERTIFIED NATURAL PLANTBASED AND OIL EXTRACTS

All our extracts and oils are obtained from certified organic plants from the Mediterranean area. Ingredients stemming from our tradition and culture, selected and treated with a scientific approach for maximum product effectiveness.

NATURAL-ORIGIN INGREDIENTS

The new formulations have a high percentage of natural-origin ingredients, calculated according to the Guidelines of the ISO 16128 International Standard, adopted by us to guarantee transparency (An ingredient can be considered natural when at least 50% of its molecular structure is declared to be of natural origin).

HYPERFERMENTED ACTIVATED INGREDIENTS

We have chosen HyperFermentation for selected plant extracts. The innovative technological process allows us to extract all the molecules that make up the phytocomplex of the plant and transform them into new active, bioavailable and effective ingredients. Thus, the plant extract is enhanced and enriched in vitamins, new antioxidant systems, amino acids and proteins.

ACTIVATED OILS

We have processed some natural oils with enzyme activation which has increased their antioxidant and nourishing power, 'activating' a new moisturising action and transforming them into new precious active ingredients which are more similar to the hair.

EASY-RINSE SYSTEM

New cleansing technology has allowed us to formulate our Sulfate free Shampoos with innovative surfactant molecules based on amino acids - 100% natural origin and latest generation - for faster rinsing. The same principle has been used for some conditioning formulas in the range, developed for rapid action, feature a combination of cationic surfactants and functional ingredients aimed at rapid rinsing with water saving.

HIGH-TECH SILICONES

We have chosen the latest generation of 'permeable' silicones for some formulas, aimed at lowering the environmental impact, with maximum performance on the hair without creating a barrier.

ACTIVE PROTECTION OF THE MICROBIOME

For the Scalp-Care Treatments, we have selected Pro-Biome, an active ingredient from natural origin that protects the microbiome and, by stimulating the growth of beneficial flora, defends the scalp and hair from external micro-aggressions.

ANTI-BREAKAGE PROTECTION - SEALING ACTION SPLIT ENDS PROTECTION

We have enhanced the fortifying action of the Hair-Care Treatments dedicated to damaged and weakened hair with ingredients with proven anti-breakage protection, which generate new multiple bonds inside the hair fibre. We have enhanced the protective action of pre-styling formulas with an innovative plant-based ingredient that is activated by heat, offering long-lasting sealing and repairing action, anti-breakage protection and split-ends prevention.

THE NEW DIAGNOSTIC SYSTEM TO SUPPORT PROFESSIONAL HAIR CARE SPECIALISTS IN THE SALON

Introducing a **new professional method** based on an innovative system that integrates an advanced analysis technology with application techniques and precise actions. An even **more exclusive and complete customer-oriented service**, to accompany her throughout the time spent in the salon, from diagnosis to personalised treatment.

THE DIAGNOSIS

An accurate diagnosis with maximum flexibility thanks to a new web application and a wireless trico camera that allow the analysis of scalp and hair. An easy-to-use guided program that allows you to reliably identify the cause of the problem and the specific treatment to resolve it.

THE PROGRAMS

The Mediter philosophy is based on innovative targeted treatment programs, recommended after an accurate analysis carried out with the new Seward Mediter application. **Professional programs:** treatments that are performed exclusively by the professional hair care specialists in the salon, following clear and well-defined steps and application techniques, using targeted products and professional tools. **Maintenance programs:** at-home treatments that supplement and complete the path initiated in the salon to maintain the results.

GUIDELINES

1 REFORCE

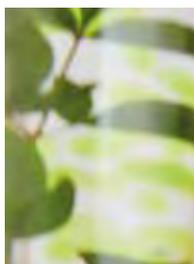

Complementary treatment in the prevention of hair loss. When performed promptly and regularly, REFORCE helps to improve the condition of the scalp, protecting the skin's microbiome and reviving and protecting the weakened hair structure, with a thickening action and anti-breakage protection.

7 REMEDY

Anti-breakage reconstruction programme for fragile and damaged hair. It is the remedy for all problems related to the weakening of the hair fibre. It works by starting from deep-down in the hair fibre and reaching the cuticle surface, with amazing results: the hair immediately regains body and fullness, as well as extreme lightness, shine and softness.

2 VOLUME

Formulated for the treatment of fine and flat hair, it delivers a dedicated thickening action, restoring body and volume to the hair, whilst adding softness and maximum lightness and anti-breakage protection. It offers an illuminating hydration and a lifting action with the support of styling with a natural effect.

3/6 THERAPY

THERAPY BALANCE allows to effectively control excessive sebaceous secretion in the case of an oily scalp and hair. THERAPY PURIFY offers a specific treatment for scalp with oily and dry dandruff, helping to restore the scalp to its best condition. THERAPY helps to protect the skin's microbiome, controlling the proliferation of unwanted flora leading to inflammation, whilst leaving the hair fibre with renewed softness, body and volume.

9 COMFORT

Specific treatment for sensitized scalp. It cleanses gently while respecting the skin's moisture film, followed by an anti-reddening, rehydrating and soothing action for a feeling of well-being and relief. It also helps to protect the microbiome whilst strengthening the skin's barrier.

8

ABSOLUTE

ABSOLUTE CURL is created to tame the frizzy effect of curly and rebellious hair with professional formulations that offer a dedicated anti-frizz, detangling and disciplining action, hydrating the hair fibre and giving curls definition and hold. ABSOLUTE SMOOTH responds to the need to give unruly and frizzy hair perfect long-lasting smoothness, with anti-frizz protection, plus a hydrating and illuminating action.

4

NUTRIVE

Dedicated to dry and dehydrated hair, it offers a complete series of cosmetic formulas developed to nourish, rehydrate and repair the hair fibre. The line also ensures a heat-protection, smoothing and sealing action, split-ends prevention, softness and shine.

5

HYDRA

Line dedicated to the treatment of colored and treated hair. The aligned formulas are designed to protect the structure and color of treated hair, prevent dehydration and repair alterations on the surface caused by external aggressions, enhancing the cosmetic color and increasing its long-term duration.

13

ALCHEMY

Dedicated to all types of hair, ALCHEMY line treatments perform a powerful nourishing and hydrating action, giving the hair fibre extreme softness and brilliance. The line is completed with formulations that offer heat protection and aid simpler and faster styling.

10

BOTANICAL

It is created to meet the demand for cosmetic treatments with a high content of natural ingredients to support a choice of simple beauty, but with a guaranteed professional result. Three formulations consisting of 99 to 99.9% natural-origin ingredients and a fresh and sweet fruity 100% natural fragrance.

12

PURPLE

Formulated for the treatment of blonde and lightened hair, it has an anti-brass neutralizing action to maintain a perfect, bright and cool blonde, while providing intensive hydration and protection of the hair fibre, improving its resistance to external micro-aggressions.
